Official Memorandum No. 1421-*III*/30-1, *Development, dated* 16*th May* 1930.

[*Reference.*—Paragraph 6 of his report, D. Dis. No. D-556/29, dated 26th April 1929—Agency—Mr. Munro's report.]

It is proposed to depute six candidates with scholarships, if necessary, from the Agency tracts for training in the Coimbatore Agricultural College from July 1930 and of two men per annum in subsequent years. Presumably these will have to be included in the normal number of admissions each year. If so, the Director of Agriculture is requested to report whether the rest of the candidates are enough for the normal needs of the Agricultural department. It may also be reported whether he can find the amount required, if any, for scholarships by reappropriation. A very early reply is requested.

Letter from G. R. HILSON, Esq., B.S., Officiating Director of Agriculture, Madras, to the Secretary to Government, Development Department, dated camp, Ootacamund, the 26th May 1930, R.O.C. No. A-679/30.

With reference to Memorandum No. 1421-III/30-1, dated 16th May 1930, I have the honour to state that if six seats in the College are reserved for students from the Agency the remaining number of students should provide a sufficient number from which to select staff required for the department.

If the amount of scholorship is limited to Rs. 25 per month, the total expenditure for the official year on this account will be Rs. 1,350 which amount I should be able to meet from savings.

Order—No. 1373 (22-*S*), *Development, dated* 26*th June* 1930.

The Government sanction the deputation of six students for three years to the Agricultural College, Coimbatore, with scholarships of Rs. 25 each per mensem, if necessary, with effect from July 1930 and of two students per annum in subsequent years until further orders. The candidates should as far as possible be men domiciled in the Agency tracts.

[18th November 1930

2. The Director of Agriculture will select the candidates and decide on the necessity for the scholarships in consultation with the Agents.

3. The scholarshipholders should be made to understand that no posts can be guaranteed to them. An undertaking should however be obtained from them to the effect that they will serve in the Agency tracts, if and when called upon.

4. The Director of Agriculture is requested to report whether he proposes to meet the amount required for scholarships, if any, from the sanctioned allotment under "34. a—Agriculture—xi. Agricultural College—Supplies and Services—Voted—Scholarships and Stipends" or by reappropriation.
